Returned to applicant for correction _____

Corrected application filed _____

Map filed FEB - 7 1994

The applicant Hidden Valley Country Club

3575 E Hidden Valley Dr, of Reno
Street and No. or P.O. Box No. City or Town

Nevada 89502, hereby make application for permission to appropriate the public
State and Zip Code No.

waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.) The incorporation occurred 1957, in the State of Nevada. The current officers are as follows: James W. Hardesty (President), Robert Anderson (V.P.), Lance Van Lydegraf (Sec.), Brad Henson (Treas.)

1. The source of the proposed appropriation is underground water from Hidden Valley Golf Course.
Name of stream, lake, spring, underground or other source

2. The amount of water applied for is 0.011 (5 gpm) second-feet
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet water will be treated and reinjected.

3. The water to be used for remediation of contaminated groundwater.
Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.

4. If use is for:

(a) Irrigation, state number of acres to be irrigated N/A

(b) Stockwater, state number and kinds of animals to be watered N/A

(c) Other use (describe fully under No. 12. "Remarks") Remediation (non-consumptive)

(d) Power:

(1) Horsepower developed less than 1 horse power.

(2) Point of return of water to stream will reinject into same aquifer.

5. The water is to be diverted from its source at the following point At least two wells T19N, R20E, Sect. 27, NE $\frac{1}{4}$, SW $\frac{1}{4}$; or at a point from which the SE corner said Section survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.
27. Bears S. 61°17'01"E, 3176.11 ft. and S. 61°54'15"E, 3147.09 ft.

6. Place of use See description on attached deed. The point of diversion is approx. 200 feet west of the east fence/property boundary and 1,000 north of the southern fence/property boundary. NE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 27, T.19N., R.20E., MDM.
Describe by legal subdivision. If on unsurveyed land, it should be so stated.

7. Use will begin about January 1 and end about December 31, of each year.
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) Pumping from existing monitoring wells
State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with pump and motor, etc.
(Waiver - M/O - 648 and 648-B)

9. Estimated cost of works.....

10. Estimated time required to construct works..... Monitoring/extraction wells have already been
If well completed, describe works.
constructed under the above mentioned waiver numbers.

11. Estimated time required to complete the application of water to beneficial use..... Anticipated time for
remediation of groundwater is 24 months.

12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual
consumptive use:

The water applied for will be used to remediate hydrocarbon contamination of
the local groundwater. The groundwater will be pumped, treated, and
reinjectd within 200 feet of the extraction wells. The use will be non-
consumptive.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the
following limitations and conditions:

This permit is issued subject to existing rights on the source. It is
understood that the amount of water herein granted is only a temporary allowance for
pollution control as mandated by orders issued by the Nevada Division of
Environmental Protection and subsequent correspondence with said agency. A
totalizing meter must be installed and maintained in the discharge pipeline near the
point of diversion. It is also understood that this right must allow for a
reasonable lowering of the static water level of permittee's well due to other ground
water development in the area. The well shall be equipped with a 2-inch opening for
measuring depth to water. The State retains the right to regulate the use of water
granted herein at any and all times.

* The right will cease to exist upon termination of clean up activity as
determined by the Nevada Division of Environmental Protection.

Monthly records shall be kept of the amount of water pumped from this well and
the records submitted to the State Engineer on a quarterly basis within 15 days after
the end of each calendar quarter.

(CONTINUED ON PAGE 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to
exceed..... 0.011 cubic feet per second , but not to exceed 7.96
acre-feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before.....

Proof of completion of work shall be filed before.....

Application of water to beneficial use shall be filed on or before.....

Proof of the application of water to beneficial use shall be filed on or before.....

Map in support of proof of beneficial use shall be filed on or before.....

Completion of work filed.....

Proof of beneficial use filed.....

Cultural map filed.....

Certificate No..... Issued.....

IN TESTIMONY WHEREOF, I, R. MICHAEL TURNIPSEED, P.E.
State Engineer of Nevada, have hereunto set my hand and the seal of my

office, this..... 11th day of March ,

A.D. 1994

R. Michael Turnipseed
State Engineer

(PERMIT TERMS CONTINUED)

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is issued pursuant to the provisions of NRS 533.4375. Well drillers reports for any well(s) drilled under this permit shall be filed within 30 days from the completion of the well.

Within 30 days after the completion of the project, the permittee shall notify the State Engineer of such completion and all wells shall be plugged and abandoned in accordance with Chapter 534 of the Nevada Administrative Code.
